Welcome to JMP Family of Libraries

Meet Kenny – your tour guide through the library system.

To register an account in the library system

You will need to register to use the library system – You will need a username, an email and a password. We will use this email to correspond with you regarding the status of your library including, upgrades and questions which you may have in the future. You can now proceed to log into your library.

Please note: be sure to use a strong password following the examples set below, this to extended rejections to the password

Register

Username*

Required. 150 characters or fewer. Letters, digits and @/./+/-/_ only.

Email*

Your mail

Password*

- Your password can't be too similar to your other personal information.
- Your password must contain at least 8 characters.
- Your password can't be a commonly used password.
- Your password can't be entirely numeric.

Password confirmation*

Enter the same password as before, for verification.

Below to your right is the login button in orange. You will need your email and password. Once done, click the return key. The screen opens to your library

How to create a new library

When an account is created, from the home page navigate to the profile menu. This is a drop-down menu as shown below. Click on “create library”:

Creating the Library

You can create your library from anywhere in the world. The library will soon upgrade to other languages besides English
